Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N® Filtercharger® seals properly.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

INSTALLATION:

1.) Open and remove the air filter housing lid.
2.) Remove the screw that holds the inlet tube in place.
3.) Loosen the hose clamp and lift the OE filter enough to remove the filter from housing.
4.) Install the K&N air filter onto the inlet tube.
5.) Rotate the K&N air filter so the tab is at the bottom and the notch on the air filter top is upright.
6.) Tighten the hose clamp.
7.) Reinstall the screw to secure the inlet tube.
8.) Reinstall the air filter housing lid.

NOTE: YOU MUST INSTALL THE AIR FILTER HOUSING LID TO AVIOD A CHECK ENGINE LIGHT.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.

CLEANING:

K&N Engineering, Inc., suggests checking the air filter element periodically for excessive dirt build-up. Depending on your driving conditions, we recommend cleaning your air filter every 50,000 miles. To clean and re-oil, purchase our filter Recharger® service kit, part number 99-5050 or 99-5000 and follow the easy instructions.
