K&N® Cabin Air Filters replace your vehicle's stock cabin filter with a reusable design that cleans and freshens incoming air. They are electrostatically charged to grab and hold dust particles. K&N® cabin air filters help control odors while they help capture most mold, mildew, fungus, spores, bacteria and germs. When they get dirty they can be cleaned and reused and best of all, they come with a 10 year/Million mile limited warranty.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

When applicable, refer to owner's manual for manufacturers installation/removal instructions. The following are helpful steps when replacing/servicing cabin air filter with K&N® cabin air filter.

1. Open the glove box and remove the cable. Fig. 1 & 2
2. Allow the glove box compartment to drop and locate the cabin filter door. Fig. 3
3. Remove the cabin air filter door. Fig. 3
4. Remove the dirty cabin filter. Clean any debris that might be present inside the housing.
5. Install the K&N® cabin air filter into the housing at an angle. Fig. 4
   NOTE: Gently push the right side of the filter in. This will allow the filter to straighten and slide into the housing. Fig. 5 & 6
6. Reverse steps 1-3 to complete the cabin filter installation. With the K&N® cabin filter installed, clean an area and apply the K&N® Stop Decal. The decal will help notify others that these are reusable cabin filters.
