FACTOR 55® CLOSED SYSTEM WINCHING®

PROLINK® WINCH SHACKLE MOUNT

MADE IN USA

The original Closed System Winching® shackle mount.

Used by search and rescue and military operations worldwide, ProLink is easy to install and lets winch owners replace the winch hook with a stronger shackle/D-Ring for a secure Closed Loop System™. The ProLink doesn't require splicing and is compatible with steel or synthetic ropes up to 3/8" in diameter. The cable eye is retained in the ProLink by an ultra-strong aerospace-grade 5/8" diameter titanium double-shear pin and internal snap ring, and is easily installed in minutes. The EPDM rubber guards protect alloy fairleads and are securely attached to the ProLink with four barbed tips, which also prevent rattling. Available in a variety of colors to match any rig.

- Easy to install and can be used with steel or synthetic winch lines up to 3/8"
- The eye is retained in the ProLink with a 5/8"-diameter grade 6Al-4V grade V titanium double shear pin and internal snap ring for an ultra-secure connection
- Made from machined lightweight billet 6061 aluminum for superior durability
- EPDM rubber guards are attached with four barbed tips and protect fairleads and prevents rattling
- Can be used with standard 3/4" shackles and soft shackles up to 7/16"
- Intended for use with winches 16,500 lbs. in capacity or less
