97-06 JEEP TJ 1” SEAT RISER KIT

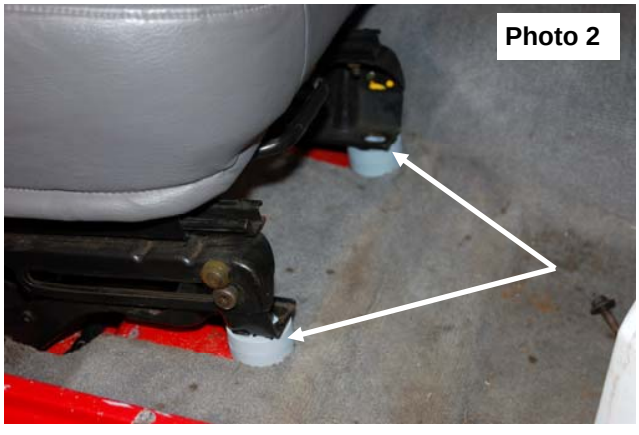
Thank you for choosing to purchase a Rough Country product. We appreciate your decision.

Please read instructions before beginning installation. Check the kit hardware against the parts list on this page to make sure you have all the needed parts and know where they go. Also please review tools needed list and make sure you have needed tools before you start.

We will be happy to answer any questions concerning the design, function, and correct use of our products at 800-222-7023.

INSTALLATION INSTRUCTIONS

1. Remove the 4 bolts from front driver seat that secures the seat frame to the floor pan. The rear bolts will require a T-55 bit. The other three bolts will be removed using a 13mm socket. The front bolt is pictured in **Photo 1.**
2. Place the supplied 1” puck in between the seat frame and the floor pan. Secure with the supplied 7/16” and 8mm bolts using a 5/8” socket and 13mm socket. **See Photo 2.**



3. Re-check each bolt/nut for tightness.
4. Repeat steps on passenger seat.
