FLATLINK E® WINCH SHACKLE MOUNT

The extra-versatile "Expert" version of the low-profile FlatLink

The FlatLink E (Expert) offers a pear-shaped opening allowing for attachment to either the pin or bow end of common screw pin shackles, as well as common OEM recovery points. Like the FlatLink, it replaces the conventional winch hook with a stronger shackle/D-Ring. FlatLink E folds neatly into the fairlead when not in use, and allows for a better approach angle than ProLink. Utilized by search and rescue and militaries across the globe, the FlatLink E doesn't require splicing and is compatible with steel or synthetic ropes up to 3/8" diameter. It attaches with a super-strong aerospace-grade double-shear titanium pin and snap ring, which is easily installed in minutes. The EPDM rubber guards protect alloy fairleads, prevents rattling, and is securely attached to the FlatLink E with four barbed tips. Available in multiple colors to match any rig.

- Easy to install, FlatLink E can be used with steel or synthetic winch lines up to 3/8"
- Pear-shape opening allows for attachment to the pin or bow end of common screw pin shackles or OEM recovery points
- The eye is retained in the FlatLink E with a 5/8" diameter 6Al-4V grade V titanium double-shear pin and internal snap ring for an ultra-secure connection
- Made from machined lightweight billet 6061 aluminum for superior durability
- EPDM rubber guards are attached with four barbed tips and protects fairleads and prevents rattling
- Works with common 3/4" shackles, 1/2"+ soft shackles, and OEM recovery points.
- Intended for use with winches 16,500 lbs. in capacity or less
- Intended for use with winches 16,500 lbs. in capacity or less
