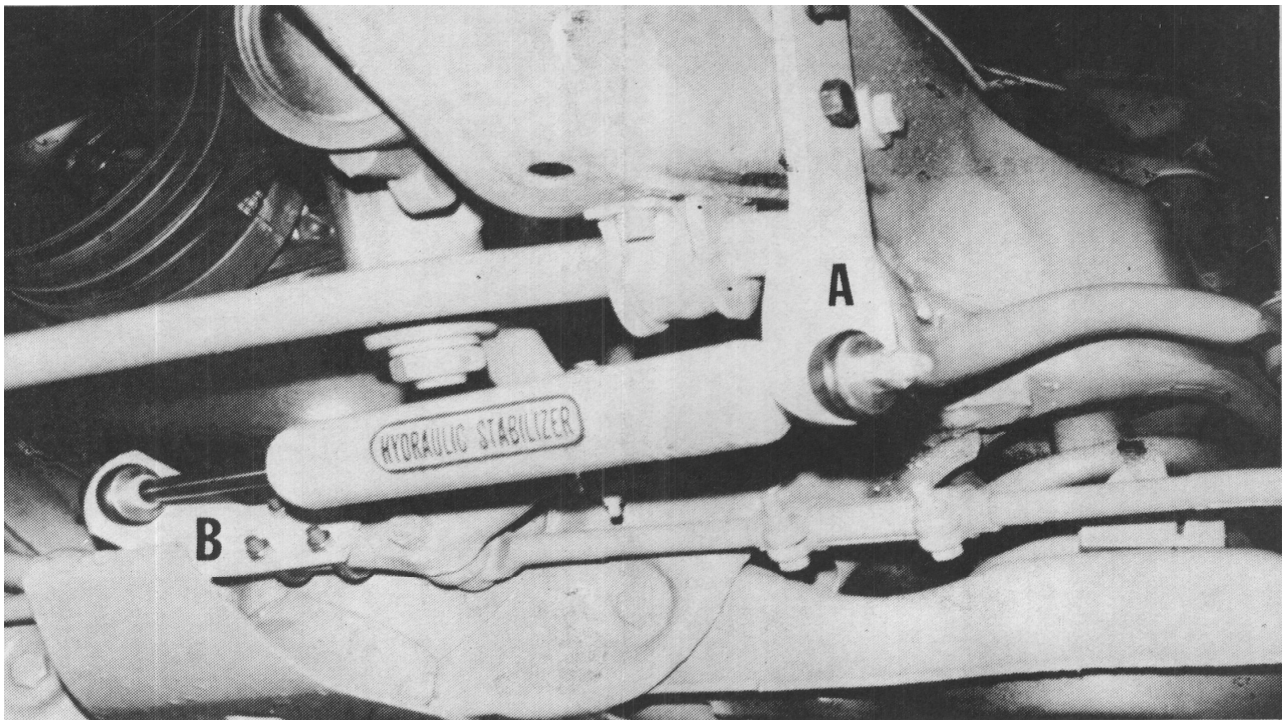
INSTALLATION INSTRUCTIONS **FORM NO. 82214**



CHEVROLET S-10 AND GMC S-15 PICKUP
2-WHEEL DRIVE

NOTE: All surfaces should be clean and dry before attaching brackets.

1. Place wheels in straight forward position.
2. Remove and discard bolts that secures bumper brace and steering column housing. Place bracket "A" outside of frame as shown. Install new bolts furnished in kit. Top bolt goes through bracket, bumper brace and into frame. Bottom bolt goes through bracket , hex washer (be sure washer is between bracket and frame) and into frame. **Tighten securely.**
3. Attach stabilizer rod end to bracket "A", using bushing stack up instructions printed on bag.
4. Attach bracket "B" to stabilizer as shown, using bushing stack up instructions printed on bag.
5. Extend stabilizer piston rod 4 1/4 inches and install bracket "B" to tie rod as shown. Secure with u-bolts, lock washers and nuts. **Tighten securely.**

IMPORTANT NOTES:

6. Turn wheels fully to right and left making sure that no interference occurs and that wheel stops are fully contacted.
7. Re-check all nuts for tightness before releasing installation.

BOX CONTENT
