K&N® Cabin Air Filters replace your vehicle's stock cabin filter with a reusable design that cleans and freshens incoming air. They are electrostatically charged to grab and hold dust particles. K&N® cabin air filters help control odors while they help capture most mold, mildew, fungus, spores, bacteria and germs. When they get dirty they can be cleaned and reused and best of all, they come with a 10 year/Million mile limited warranty.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

When applicable, refer to owner's manual for manufacturers installation/removal instructions. The following are helpful steps when replacing/servicing cabin air filter with K&N® cabin air filter.

1. Open glove box compartment. Fig. 1
2. Press in on the sides of the glove box and pull down to allow access to the cabin filter housing. Fig. 2
3. Press the tabs on the side of the cabin filter door and remove. Fig. 3
4. Remove dirty cabin filter by pulling it towards you. Remove any debris that might be present inside the cabin filter housing. Fig 4
5. Install K&N® cabin air filter with the cut-out facing towards you as shown. Fig. 5
6. Re-install the door with the bottom edge first to ensure that the filter sits on the shelf of the door. Snap the door in place. Figs. 6 & 7
7. Reverse steps 1-6 to complete cabin filter installation. With the cabin filter installed, clean an area on the housing and apply the K&N® Stop Decal. The decal will help notify others that this is a reusable cabin filter.
