K&N® Cabin Air Filters replace your vehicle's stock cabin filter with a reusable design that cleans and freshens incoming air. They are electrostatically charged to grab and hold dust particles. K&N® cabin air filters help control odors while they help capture most mold, mildew, fungus, spores, bacteria and germs. When they get dirty they can be cleaned and reused and best of all, they come with a 10 year/Million mile limited warranty.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

When applicable, refer to owner's manual for manufacturers installation/removal instructions. The following are helpful steps when replacing/servicing cabin air filter with K&N® cabin air filter.

1. Open the glove box and remove the support on the left side. Fig. 1
2. Remove the glove box by detaching the hinges from the mounts and set aside. Figs 2 & 3
3. Squeeze the tabs on the filter door and remove it. Figs. 4 & 5
4. Remove the dirty cabin filter. **NOTE: that you will have to distort the filter to get it out.** Fig. 6
5. Install one of the new K&N® filters into the housing, with the logo facing out, and slide it to the right side. Figs. 7 & 8
6. Install the second new K&N® filter in the left side of the housing. Fig. 9
7. Reverse steps 1-3 to complete the installation. With the cabin filter installed, clean an area near the filter door and apply the K&N® Stop Decal. The decal will help notify others that this is a re-usable cabin filter.
