(C) 6" SAE SR Lights

INSTALLATION INSTRUCTIONS

STEP: 1

Attach the brackets to the lights using the provided hardware, using an 11mm socket or wrench.

Place the lamps together to make sure you have the proper bracket on the proper side. Be sure the SAE certification is at the bottom left corner of each light.

PASSENGER SIDE

DRIVER SIDE

STEP: 2

Connect the H11 jumpers to the to the light.

STEP: 3

Remove the upper plastic cover on the Trucks front bumper. This will reveal the mounting points of the stock fog lights. Remove the factory hardware (Philips Screws) holding the factory fog light in its cavity. Unplug the factory wiring harness from the back of the factory fog light. Remove fog light revealing cavity shown below.

STEP: 4

Plug the new SAE Fog Light into the factory harness. Secure the extra length of ingress wire.

Next mount your new Rigid fog light on the stock location using the Phillips head screws.

STEP: 5

Before re-installing the plastic cover on the bumper be sure to aim your lights for best use and output

Your installation is now complete.
