ROUGH COUNTRY SUSPENSION SYSTEMS®

Inline Speedometer Calibration Kit

Thank you for choosing Rough Country.

NOTICE Please read instructions before beginning installation. Be sure you have read and understand the procedures and the unit has been configured and updated prior installing.
If question exist, please call us @1-800-222-7023. We will be happy to answer any questions concerning function, and correct use of our products.

This installation manual shows an example installation on a 2014-2018 Toyota Tundra. The installation may vary for your vehicle, so it may be necessary to consult a Toyota service manual for specific instructions for your year model.
Be advised: These instructions may not include specifics for all vehicle configurations.

INSTALLATION INSTRUCTIONS

1. Connect the Inline Speedometer Module to your PC with the supplied USB cable and configure it to your vehicle. Once configuration is complete, connect the module to the harness.

2. On the driver's side, remove the floor and kick panels as shown.
3. Using the 10mm socket, remove the bolts from the lower IPC (Instrument Panel Cluster) trim bezel.
