UNDERSEAT STORAGE BOX INSTALLATION

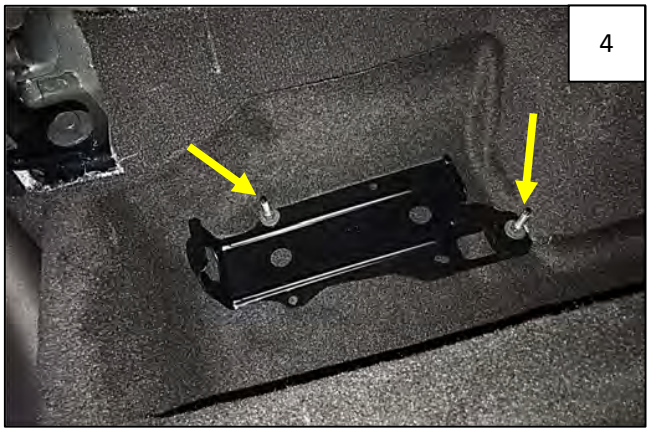

Locate the jack under the rear passenger seat.

Remove the wing nut from the threaded hook and place the wheel chocks to the side.

Loosen the jack and remove from the mount. Set aside.

Using a 10mm socket, remove 2 nuts from studs holding jack base plate to floor of vehicle. These will be reinstalled. Remove jack plate.

Loosen the wing nut from the floor stud and remove the tool kit from under the drivers side rear seat.

Place the Underseat Storage Box against the contours of the floor. Lid opens out into cab. Reinstall jack plate and nuts removed in Step 4.

Reinstall jack onto jack plate.

Nest jack tools in driver side of the Underseat Storage Box (against rear of box) and reinstall knob removed in Step 5.

Close the lid of the UnderSeat Storage Box, and lock each lock with pair of keys.

Underseat Storage Box installation is complete. Lower seat into place.
